Summary:

Curious and motivated Developer learning React.js, Next.js, and modern web technologies. Passionate about exploring new technologies and tools for constantly improving my skills and building what matters.

Education

Tribhuvan University – Veda College

Bachelor in Computer Science and Information Technology (BSc CSIT)

March 2022 – November 2026

Relevant Coursework: Web Development, Software Engineering, Database Management Systems, Data Structures and Algorithms, Design and Analysis of Algorithms, Computer Networks, Net-Centric Computing, Compiler Design, Object-Oriented Programming, Operating Systems, Theory of Computation, Artificial Intelligence, E-Commerce, E-Governance, Computer Architecture, Microprocessor, Cryptography, Technical Writing, System Analysis and Design

Technical Skills

Programming Languages: C, C++, C#, JavaScript, TypeScript, Python, PHP, Rust

Frontend and Frameworks: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend: Node.js

Database: MySQL, SQL Server

Tools & Software: Git, GitHub, Docker, VS Code, Photoshop, MS Office

Deployment: Vercel, Cloudflare

Version control: GitHub flow, pull requests

Projects

1. Portfolio Website – shakyaabhishek.com.np

Developed a personal portfolio using React.js and Tailwind CSS to highlight technical skills and projects.

- Designed a responsive layout with smooth transitions and animations
- Deployed on Vercel for optimized performance

2. Prison Management System (PMS) – prisonmanagementsystem.vercel.app

Full-Stack Web Application | Next.js 15, TypeScript, React 19 following IEEE 830-1998 SRS standards as an academic project.

Project Overview: Developed a comprehensive digital solution for correctional facility administration, featuring secure inmate management, staff administration, visitor tracking, medical records, and incident reporting systems.

3. Tax-Ease Nepal (Hackathon Project) – [github.com/InterAsianHack025/Codeions\(Public\)](https://github.com/InterAsianHack025/Codeions(Public))

Developed during a hackathon **Asianhack2025** with team name codeions designed to simplify Nepalese taxation processes.

- Collaborated with a team to prototype a web solution
- Focused on user experience and data visualization using React.js
